

ArdenX Agricultural Solutions

ArdenX is a new U.S. Patented fence line and freestand solution to deploy a variety of environmental monitoring and sensor technologies:

- Precision agriculture
- Environmental monitoring
- Microclimate monitoring
- Irrigation management
- Plant disease management
- Water conservation
- Animal Management System
- Security
- Electric Fence

ArdenX deploys quickly, moves, re-configures and adapts when needed. ArdenX is easily re-deployed and reused as conditions or alternative locations require change. ArdenX is innovative, U.S. Patented, cost effective, long-lasting and eco-friendly.

ArdenX can be used for hosting monitoring equipment on various site conditions such as rough fields, undeveloped land, rooftops, swamp, desert, riverbed, rocky, hilly, wooded, snow or ice.

ArdenX LLC
2811 SW 3rd Avenue
Miami, Florida 33129-2316

U.S. Patent No. 7753346, other U.S. & International Patents Pending
Designed and Made in United States of America

ArdenX features and benefits

- **Free-standing**, sits on top of the ground
- **Rugged** steel X post design
- **No post holes** to dig!
- **Low installation cost** due to no holes, no fence posts to install or maintain
- **Rapid deployment**, quick & easy to install
- **Bend** your fenceline around trees, buildings, equipment & around hills.
- **Reconfigure** and move your technology easily when needed
- **Re-deployable** to alternative locations
- **Extremely strong** and durable
- **Long life** estimated @ 40-50 year

Technology ArdenX can integrate:

- Digital Cameras
- Rain Gauges, Temperature and Relative Humidity Sensors
- Solar Radiation Sensors
- Wind Speed and direction sensors
- Animal Management Solutions
- Wireless Mesh Telemetry Nodes and Base Stations
- Vibration & Motion Sensors
- Radio frequency Identification (RFid)
- Forward Looking Infrared Radar (FLIR)
- Thermal Imaging Solutions
- Identification Management
- Alarm Systems & Lighting
- Electric fence
